6 Hours
verifiable
CPD

Registration from 9am

Speaker :

Serpil qualified at King's in 1988, and since 2008 has been working as a Consultant in Restorative Dentistry at King's College Hospital.

In 2009, she took on the role of clinical lead for Restorative Dentistry and Traumatology and she is actively involved in the acute and long term management of patients who have sustained traumatic dental injuries.

She is founder chairperson to Dental Trauma UK, a new charity set up to raise public and professional awareness of the prevention and management of traumatic dental injuries.

DentalTraumaUK
Saving injured teeth

Aims and Objectives

Aims:

1. Understand the causes of dental trauma
2. Explore the management of acute dental injuries in adults
3. Understand the long term sequelae following dental trauma

Learning outcomes:

1. Improve the management of acute dental trauma in general dental practice
2. Take home tips and tricks to make your management efficient
3. Understand how acute management can affect the long term prognosis of teeth
